

PowerMate®

Customer Testimonials:

"This is the only way to be competitive in this cut throat market. Recently I delivered a 28 cubic foot side by side up 14 flights of stairs by myself. It's becoming a good rental item as well in our Just Rental department. This unit makes going through a tight spot a cinch. I would recommend one to every appliance dealer."

Mr. Tom Van Holland
M & H True Value & Just Ask Rental

"I would like to thank you and all the people at PowerMate® for immediate sales, service and training. Your customer service is superior! The two mechanical stair climbers we just recently purchased, models LE-1 and M-1 were put to work the moment they arrived. These two models meet all of our needs moving heavy items such as boilers, furnaces, water heaters and air conditioning equipment....This was by far the best investment we made this year!"

Mr. Michael Ritchie
Link Mechanical Service Inc.

"I am very happy to report our complete satisfaction with both the performance and durability of the PowerMate® LE-1 we purchased back in August 2001. We purchased the LE-1 when we started to sell cast iron woodstoves because of the delivery and install issues associated with 500lb to 700lb stoves. Well, five years later and 100's of successful lifts, our unit is still going strong. Even more importantly, we have not lost a single man-hour to back injury when using the LE-1 and that has saved us many times the cost. In closing, the LE-1 has performed to all our expectations, one man can easily handle a 500lb load and we are happy to recommend it."
